

# ADLER - BIRD FREE GEL CASE STUDY

Papakura Library, Auckland, NZ Oct 2018

Papakura Library building in central Papakura, Auckland had a Pigeon infestation on the level 4 side roofs which were visible from the office space.

Potential tenants were put off by the site and smell - and health hazard . The windows could not be opened as it would let dung dust and feathers into the office space.

# ADLER - BIRD FREE GEL CASE STUDY

The roofs were pressure washed clean using disinfectant to remove the smell and kill bacteria. Magnetic trays of Bird Free were installed to the roofs

The site remains pigeon free to this day
